

Grayscale Systems LLC

Grayscale Systems LLC is an Information Technology (IT) consulting firm specializing in the delivery of **IT Project Management**, the development of **IT System Architecture** and the efficient and effective **Management of IT Resources**.

At Grayscale we concentrate on getting you the highest return for you IT budget.

Here are a few of the areas where Grayscale can manage your projects, implement systems and supplement your IT resources:

- **Retail Systems**
 - Grayscale's members have the experience you need to plan, implement and manage **retail application systems**. We are skilled in Merchandising, Point of Sale, Production, Sales and Marketing, Time and Attendance, Finance and Budgeting systems.

- **Ecommerce Systems**
 - Grayscale's members have been **integral resources** in the development of Hawaii's largest Ecommerce vendor.

- **Information Security**
 - Grayscale has developed information **security infrastructures** required to do business in today's high-threat environment. We are particularly versed in the requirements of the Payment Card Industry – Data Security Standard.

- **Off-Site Migration**
 - Allow Grayscale to plan, implement and manage the relocation of your internal application servers to "**always on**", **secure, off-site** locations.

- **Technical Infrastructure**
 - Grayscale's members have designed and implemented **technical infrastructures** for all sized companies. From a single location health clinic to multi-store retail environments, Grayscale can ensure you have the stable and secure infrastructure needed to run your business.
